LEAK DETECTOR®

The Leak Detector® was developed in response to the needs of our customers, who need a reliable system to check for leaking vacuum on sealed cheese blocks.

Detection

The Leak Detector® has a Servo driven sensor head, that calibrates for the height of every individual block. The flawless design allows for continuous checking without having to stop the product flow. The system is recipe driven for different cheese types and allows operator calibration through touch screen technology.

Capacity

The Leak Detector® can check a maximum of fifteen 20kg/44lb cheese blocks per minute.

Rejection

The Leak Detector® has an integrated rejection station. This station can reject under and oversized cheese blocks, removing them from the product line. The system provides real-time analytics of rejection rates, helping your line detect problems faster and with better accuracy.

WELCOME TO THE 2022 **GLOBAL CHEESE AWARDS**

Thank you for showing an interest in entering this year's Competition. We are hugely grateful for the support we receive from exhibitors across the world and hope any successes you achieve help enhance your marketing strategies and sales.

May we take this opportunity to firstly say thank you to all our existing sponsors for their generous support & thank you to all the potential sponsors who may be thinking about becoming involved with our event.

The Artisan section is as large as ever. We have retained the production classes from previous years and we have added over 40 new classes aimed specifically at artisan producers. We hope that we now really do offer something for all cheesemakers, large and small, from the United Kingdom and from abroad.

We will also see the return of the Global Cheese Awards Dinner on the Thursday evening. We very much look forward to welcoming you back for an evening of awards, food, entertainment and of course cheese!

Please do read the schedule carefully to make sure you do not miss out.

*We very much look forward to meeting many of you at this years
Competition and Good Luck!*

Tim Sharp & Chris Stilton - Joint GCA Chairmen
